

CEO Statement / Top Management Commitment

on Product Safety

IMPACT CLEAN POWER TECHNOLOGY S.A.

On behalf of the Management Board of **IMPACT CLEAN POWER TECHNOLOGY S.A.**, I hereby declare the full commitment of top management to ensuring product safety throughout the entire product lifecycle.

Product safety is a fundamental pillar of our corporate culture, business responsibility, and long-term development strategy. As a designer and supplier of advanced battery systems and energy solutions for the transport, industrial, and energy storage sectors, we fully recognize our responsibility towards our customers, end users, and society.

The Management Board of ICPT S.A. is committed to:

- ensuring that all products comply with applicable legal and regulatory requirements, including UNECE regulations,
- meeting the requirements related to functional safety, cybersecurity, and automotive software update management,
- continuously improving our quality, information security, and product safety management systems,
- providing adequate resources, competencies, and organizational responsibilities to achieve product safety objectives,
- promoting product safety awareness among all employees and business partners,
- maintaining open and transparent cooperation with customers, suppliers, and regulatory authorities.

I expect all employees of ICPT S.A., regardless of their position, to actively support these commitments and to perform their duties in accordance with established procedures and company values.

Only through the consistent application of the highest safety and quality standards can we build lasting trust and strengthen ICPT S.A.'s position as a reliable and responsible technology partner.

Management Board
